DETAILED ACTION

1. This action is responsive to communications: Amendment, filed on 12/21/07.
2. Claims 2-6 and 8-12 are pending in the case. Claims 2, 4-6, 8 and 11 are independent claims. Claims 2, 4, 8 and 11 have been amended.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
2. Claims 8, 9, 11 and 12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant's Specification/Drawings fail to provide adequate support and description of physical hardware regarding the various "means" and "components, subcomponents" as specified in the claims.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 4-6 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 4-6 respectively claim "a program product" which is representative of descriptive material without any functional interrelationship. Thus, a program is not a process, machine, manufacture or composition of matter and does not fall within one of the four statutory classes of § 101.

Response to Arguments

4. Applicant's arguments with respect to claims 2-6, 8, 9, 11 and 12 have been considered but are moot in view of the new ground(s) of rejection.
